HOLLYWOOD LIBRARY DESTROYED

Fifteen companies of firefighters, under the direction of Division Commander David Sloan, responded to a greater alarm structure fire at 1623 Ivar Avenue in the Hollywood area.

First companies on the scene reported a two-story 100' x 150' library well involved with fire. Firefighters using handlines and "heavy stream appliances" confined the fire to the "Hollywood Library" and extinguished the fire in one hour and twenty-two minutes. Fire damage is estimated at \$900,000. One firefighter suffered a sprained ankle and was transported to Hollywood Presbyterian Hospital. The cause of the fire is under investigation by the Arson section.
